### TECHNICAL DATA SHEET

#### DOLOX<sup>®</sup> 35

##### APPLICATIONS:

DOLOX<sup>®</sup> consists of high purity and high stability hydrogen peroxide and is suitable for general industrial applications, for example:

- Bleaching
- Mining
- Water / Waste Water Treatment
- Chemical synthesis

##### SPECIFICATIONS:

| PARAMETER                | VALUE                                            | REFERENCE                 |
|--------------------------|--------------------------------------------------|---------------------------|
| Concentration (active)   | 35.1 – 35.5 wt.%                                 | DESCON OXYCHEM<br>LIMITED |
| pH                       | 0.8 ~ 2.0                                        |                           |
| Stability, 16 hr at 96°C | ≥ 95 wt.%                                        |                           |
| Appearance               | Clear solution free from<br>suspended particles. |                           |

##### STORAGE & HANDLING:

Consult the Material Safety Data Sheet (MSDS) for appropriate information.
